

Service Columns

Flexible media supply with service carriers from the ceiling

Laboratories must meet the changing needs of researchers over the years. A flexible media supply with service carriers from the ceiling offers optimal solutions. The service carriers can be easily moved or removed as needed, allowing for cost-efficient adaptation.

Options

- Select up to 8 compartments per column
- Electricity
 - 3 sockets (6 Plugs for US) per compartment, as required
- Network/ICT (Information and Communications Technology)
 - RJ45 connectors – single or double, as required
- Gases/Air supply
 - Combustible gases up to a maximum grade of gas purity 6 (99.9999%)
 - Compressed air
 - Vacuum
- Comes with CE certification, SINA (Switzerland) and VDE (Europe) tested and marked depending on country

Additional technical attributes

- No visible screws
- Customizable
- Electricity/ICT access panel at the top for easy Facility management access
- Two chambers within each column (gases are separated from electricity/ICT)
- Available as static and sliding column
- Integrated earthing
- Front and Backpanel Aluminum

Surface

- All RAL color options available
- Powder coated

The best partner for your ideas.
